## **8. Three American gets Nobel Prize for Economics for their research in preventing bank collapse ( Oct. 10, 2022 )**

The Royal Swedish Academy of Science has awarded three American economists **Ben Bernanke, Douglas Diamond** and **Philip Dybvig**, the [Nobel Prize](#) in economics 2022 for their pioneering work on "improving our understanding of the role of banks in the economy,

particularly during financial crises and why avoiding bank collapses is vital.” The **Sveriges Riksbank Prize in Economic Sciences for 2022** was announced 10th October 2022.

### **Ben Bernanke**

According to the Nobel committee ““Through statistical analysis and historical source research, Bernanke demonstrated how failing banks played a decisive role in the global depression of the 1930s, the worst economic crisis in modern history. The collapse of the banking system explains why the downturn was not only deep, but also long-lasting. It added the importance of well-functioning bank regulation is also understood thanks to this research.

Ben Bernanke was the chairman of the United States Central Bank, **Federal Reserve** in 2008 when the failure of Lehman Brothers sparked a worldwide financial crisis.

### **Douglas W Diamond and Philip H Dybvig**

Both Diamond and Dybvig worked together to develop theoretical models explaining why banks exist, how their role in society makes them vulnerable to rumours about their impending collapse, and how society can lessen this vulnerability. These insights “form the foundation of modern bank regulation,” said the Academy.
