1. Agriculture Minister Inaugurates Integrated Biological Control Laboratory in Hyderabad (May 16, 2023)

Agriculture-Minister

Union Agriculture and Farmers Welfare Minister **Narendra Singh Tomar** officially inaugurated the **Integrated Biological Control Laboratory located in Hyderabad** on 15 May.

An overview of the news

- This laboratory is an important milestone in promoting sustainable and eco-friendly agricultural practices.

Emphasis on biological control

- The primary focus of the laboratory is on the use of biological control methods.
- These methods involve the use of natural agents such as beneficial insects, predators and parasites for the management of pests and diseases in agricultural crops.
- By reducing reliance on chemical pesticides, this approach supports ecosystem balance and sustainable agriculture.

Advances in Pest Management

- The establishment of the Integrated Biological Control Laboratory represents a remarkable progress in the field of pest management.
- This highlights the government's commitment to adopt integrated pest management strategies that prioritize environment-friendly solutions.

Research and development

- The laboratory serves as the center for research and development activities related to biological control.

Key work of the laboratory

- Development and large scale production of biocontrol agents.
- These agents are natural enemies of insects, such as parasitoids, predators, and entomopathogenic microorganisms.
- The laboratory will ensure the quality and effectiveness of these agents, which are released into agricultural fields to manage pest populations.
- The laboratory will carry out intensive testing and standardization of biocontrol agents.
- This will ensure their efficacy, safety and compatibility with various farming systems.
- The goal is to provide reliable and efficient organic control solutions to farmers.
