3. Interpol withdraws Red Notice against Mehul Choksi (March 23, 2023)

Interpol has withdrawn the Red Corner Notice (RCN)

Interpol has **withdrawn the Red Corner Notice (RCN)** issued against **Mehul Choksi**, the main accused in the **Rs 13,500 crore PNB loan scam** case.

An overview of the news

- **Central Bureau of Investigation (CBI)** has sought the restoration of the notice.

Case against Mehul Choksi

- Mehul Choksi is the **owner of Gitanjali Group**, a jewelery firm with **4,000 stores in India**.
- He along with his nephew **Nirav Modi** is a culprit in the **Rs 13,500 crore Punjab National Bank (PNB) scam**.
- Choksi and Modi are accused of issuing **fake Letters of Undertaking (LoU) and foreign letters of credit** to companies owned by them in connivance with bank officials.
- In this case, PNB did not keep any security before issuing the LoU.
- The matter came to light in **January 2018**, when PNB submitted a fraud report to the Reserve Bank of India.
- The CBI registered an FIR in the matter a week later. By this time Choksi had fled the country.
- Choksi is wanted in India on charges of **criminal conspiracy, criminal conspiracy, cheating and financial embezzlement**.

What is an Interpol Red Notice?

- **Criminals or suspects often flee to other countries to escape justice.**
- A Red Corner Notice, or Red Notice (RN), alerts police forces around the world to **fugitives who are wanted internationally**.
- A Red Notice is a request to law enforcement around the world to locate and temporarily arrest a person wanted for **extradition, surrender or legal action**.
- A Red Notice is **not an international arrest warrant**.

About Interpol

- The full name of INTERPOL is the **International Criminal Police Organisation** and is an intergovernmental organisation.
- It was **set up in 1923**.
- Member countries - **195**
- **India became** its member on **15 October 1949**.
- It helps police in all of them to work together to make the world a safer place.

- Headquarter - **Lyon, France.**

4. Gujarat court sentences Congress leader Rahul Gandhi to two years in jail (March 23, 2023)

A court in Surat in Gujarat has convicted Congress leader Rahul Gandhi in a criminal defamation case filed in 2019 over his remarks on Modi's surname.

An overview of the news

- The court also sentenced him to **two years in jail.**
- The court of **Chief Judicial Magistrate HH Verma** convicted **Rahul Gandhi under sections 499 and 500 of the Indian Penal Code.**
- The court granted bail to Rahul Gandhi and stayed the sentence for **30 days so that he can appeal in a higher court during this period.**
- After this decision, **Rahul Gandhi's membership of Parliament can also go from Wayanad parliamentary constituency.**
- **Before the 2019 Lok Sabha elections,** Rahul Gandhi made an objectionable comment on the Modi surname while addressing a public meeting in Kollar, Karnataka.

What will be the effect of this decision?

- The disqualification of an MP convicted of an offense can be in **two cases.**
- If the offense for which he is convicted is listed in **section 8(1) of the Representation of the People Act, 1951.** This includes offenses such as section **153A** (offence of promoting enmity between different groups on grounds of religion, race, place of birth, residence, language, etc. and doing acts prejudicial to maintenance of harmony) or section 171E (offence of bribery). Are.
- **Section 171F** (offence of undue influence or impersonation at election) and certain others.
- **Second, Section 8(3)** of the RPA states that an MP can be disqualified if convicted and sentenced to a minimum of 2 years' imprisonment.
- However, the section also states that disqualification takes effect only "**after the lapse of three months**" from the date of conviction.

- Within that period, Gandhi can file an **appeal against the conviction before the High Court.**

5. Asia's largest 4-meter telescope inaugurated in Uttarakhand (March 23, 2023)

Asia's largest 4-meter telescope inaugurated in Uttarakhand

Asia's largest 4-meter International Liquid Mirror Telescope was launched in **Devasthal in Uttarakhand** on 21 March.

An overview of the news

- The telescope was officially inaugurated by Science and Technology Minister **Jitendra Singh**.
- It has been established at the **Aryabhata Research Institute of Observational Sciences (ARIES) located in Nainital, Uttarakhand**.
- The observatory will explore the deep sky, collecting an assortment of objects ranging from asteroids to supernovae and space debris.

About the International Liquid Mirror Telescope

- It consists of a **4-metre-diameter rotating mirror** made of a thin layer of **liquid mercury to collect light**.
- It mainly consists of **three components**.
- **The first bowl contains a reflective liquid metal (mercury).**
- **The second air pressure driven motor** on which the liquid mirror rests.
- **Third is a system to run the motor.** The surface of liquid mirror binoculars naturally takes on a parabolic shape as it rotates, which is ideal for focusing light.
- A thin transparent film of micellar liquid protects the mercury from wind abrasion, which can create ripples on the surface of the mercury.
- The reflected light passes through a sophisticated multi lens optical corrector which produces clear images over a wide field of view.

Why was the telescope made?

- It is designed to survey the night sky and detect variable and transient objects such as **supernovae, space debris and gravitational lenses**.
- Through its data, the telescope can analyze objects in the sky using machine learning and artificial intelligence.

6. Union Health Ministry organises 2-day technical symposium for Dengue control in India (March 23, 2023)

Union Health Ministry organises 2-day technical symposium for Dengue control in India

Union Health Ministry on 22 March organised a **two-day technical symposium to develop a strategic framework and roadmap for Dengue control in India.**

An overview of the news

- The objective of this symposium is to bring the identified Ministries, States, Government Institutions and development partners on a common platform to develop a strategic framework for dengue control.
- Health Secretary **Rajesh Bhushan stressed the importance of timely detection and reporting of dengue cases for effective management and control.**
- He also suggested inclusion of dengue under the Integrated **Health Information Platform** of the Ministry of Health and Family Welfare, where 33 diseases are already covered.

What is Dengue?

- Commonly known as **break bone fever**, it is a flu-like illness caused by the **dengue virus**.
- It occurs when an **Aedes mosquito** carrying the virus bites a healthy person.
- The disease is mainly found in **tropical and sub-tropical regions** of the world.

Causes of Dengue

- It is caused due to four viruses, namely - **DENV-1, DENV-2, DENV-3, and DENV-4.**
- The virus enters the mosquito when it bites an already infected person.
- The disease is transmitted when it bites a healthy person, and the virus is spread through the person's bloodstream.

Symptoms of Dengue

- Headache, Muscle, bone and joint pain, Nausea, Vomiting, swollen glands, Rash.

Treatment

- There is no specific treatment for dengue.
- Early detection of severe dengue-associated illness and access to appropriate medical care reduce deaths from severe dengue.
- Diagnosis of dengue infection is done with a blood test.
