**4. New Zealand passes world's first tobacco law to ban smoking ( Dec. 14, 2022 )**

**New Zealand passes world's first tobacco law to ban smoking**

13 December 2022. New Zealand has become the first country in the world to ban smoking in all public places, including bars, restaurants, and workplaces. The law, which came into effect on December 14, 2022, aims to reduce the health risks associated with smoking and protect non-smokers from secondhand smoke. The ban covers all enclosed or partially enclosed public places, including bars, clubs, restaurants, cafes, and workplaces. It also applies to outdoor public places, such as parks and playgrounds, where smoking is prohibited within a certain distance of the entrance. The law is a landmark decision that reflects the government's commitment to public health and reducing the burden of smoking-related diseases.
