## 1. **UN report 'Global Economic Situation and Prospects-2023' estimates India's GDP growth at 5.8% in 2023 (Jan. 27, 2023)**

India's GDP estimated to be 5.8% in UN report 'Global Economic Situation and Prospects-2023'

The United Nations (UN) has estimated India's GDP growth for 2023 at 5.8% in its report 'Global Economic Situation and Prospects-2023'. The report, released on January 27, 2023, also projects a 6.4% growth for 2022. The UN's estimate is based on the latest available data and reflects the impact of the global economic challenges, including inflation and supply chain disruptions. India's growth is expected to be slower than in previous years due to the impact of the COVID-19 pandemic and the global economic downturn.

UN report 'Global Economic Situation and Prospects-2023'
