1. **India's first hydrogen fuel cell** ( Nov. 12, 2022 )

### India's first hydrogen fuel cell

India's first hydrogen fuel cell has been successfully demonstrated at the Indian Institute of Space Science and Technology (IIST) in Thiruvananthapuram. The cell, developed by researchers at IIST, is a proton exchange membrane (PEM) fuel cell that uses hydrogen and oxygen to generate electricity. The demonstration was a significant milestone for India's hydrogen energy research and development efforts.

India's first hydrogen fuel cell

2. **Country's longest river cruise** ( Nov. 12, 2022 )

### Country's longest river cruise

The longest river cruise in the world has been completed on the Ganges River in India. The cruise, operated by the Ganga River Cruise Company, lasted for 11 days and covered a distance of 1,100 kilometers. The cruise was a significant milestone for the company and for the tourism industry in India.
