Ques: 'LPG' is one of the major sources of energy for rural and urban population in India. However, the price of LPG is increasing rapidly. Discuss the reasons for this and suggest ways to reduce the price of LPG.

- Answer: The price of LPG is increasing rapidly due to several reasons. First, the cost of production is increasing. Second, the demand is increasing. Third, the supply is decreasing. Fourth, the government is not providing any subsidy. To reduce the price of LPG, the government should provide a subsidy, increase the supply, and reduce the cost of production.
