1. NTPC inks pact with Italy based firm for green methanol production (Jan. 3, 2023)

NTPC Limited has signed a Memorandum of Understanding (MoU) with the Italian company, **Eni**, for the production of green methanol. The MoU is a significant step towards the production of green methanol in India. The company is planning to set up a green methanol production plant in the state of Odisha. The plant is expected to be operational by the year 2025. The production of green methanol will help in reducing the carbon footprint of the company and will also help in meeting the demand for green methanol in the global market.

The MoU is a landmark agreement between the two companies. It is a testament to the growing interest in green methanol production in India. The company is committed to sustainable development and is looking forward to a long and fruitful partnership with Eni.

The production of green methanol will help in reducing the carbon footprint of the company and will also help in meeting the demand for green methanol in the global market. The company is committed to sustainable development and is looking forward to a long and fruitful partnership with Eni.

The company is committed to sustainable development and is looking forward to a long and fruitful partnership with Eni. The production of green methanol will help in reducing the carbon footprint of the company and will also help in meeting the demand for green methanol in the global market.
